

The ACCESS Program of St. Joseph's Health in New Jersey seeks NJ licensed or license-eligible LCSW/LPC/LSWs to join our team of outpatient clinicians in providing behavioral health services to people who are Deaf or hard of hearing. Our clinical services include assessments; psychotherapy; treatment planning; crisis intervention; psychoeducation; referral and advocacy. Our population comes from diverse cultural backgrounds, with varied clinical, language and communication needs as well.

You will be working with a small team of experienced and highly skilled therapists, caseworkers and interpreters. Staff is comprised of both Deaf and hearing individuals.

As a hospital-based program, you will enjoy a number of benefits, including:

- Competitive Salary
- Medical, dental, vision and life insurance
- Paid time off
- 403b Retirement plan, with matching
- Tuition reimbursement
- *Flexible work schedule

* While we seek full-time employees on-site, we can also consider hybrid work schedules to include work from home flexibility. We can also consider therapists who wish to work on a per-diem or fee-for-service basis as well.

Let's talk!

If you are interested in exploring this opportunity, please feel free to contact me via e-mail so we can arrange to talk on videophone or voice phone. I will be happy to provide more information and answer your questions.

If interested, please contact Sari Breuer, LCSW, Interim Director at breuers@sjhmc.org.
